

IMPORTANT INFORMATION

Tracing Service / Restoring Family Links (RFL) despite Coronavirus / COVID-19

The GRC Tracing Service is at your side even under the current difficult conditions.

Measures to protect the population against coronavirus have been adopted in Germany at national level: The fewer people come into contact with each other, the more difficult it is for the virus to spread and thus endanger the health of many. These measures also affect the GRC Tracing Service and the services it provides:

- [[Most of the GRC Tracing Service support centres have adapted their counselling activities to current hygiene regulations applicable to public contacts.
- [[In some cases, GRC Tracing Service support centres remain closed to the public.
- [[In these cases, please contact us by phone or e-mail to obtain advice. We thank you for your understanding and will take care of your request.
